THE BLACKSTONE SCHOOL FOR GIRLS.

In 1894, after a careful study of the situation, a Christian Training School for Girls was opened at Blackstone, and about \$80,000 has been expended in the purchase of a campus of twenty-five acres and in the crection of a massive brick building equipped with all the modern appliances of Lighting, Heating, Sanitation. The purpose of the founders was declared to be to give c

"THOROUGH INSTRUCTION UNDER POSITIVE CHRISTIAN INFLUENCES AT THE LOWEST POSSIBLE COST."

Instruction:-This purpose has been carried out. Thorough instruction has been given, and the Blackstone students, in addition to the regular instruction given in Seminaries, have received Normal training, all applicants for diplomas being required to take both Theoretical and Practical Pedagogy, including actual teaching in the Model. School. The Blackstone certificate or diploma is recognized by educators as meaning what it says, and about five hundred teachers have shown the practical value of the work of the school.

Character:-But at Blackstone, character is regarded as the student's most precious possession, and boarding school life is known to be a critical time in the formation of character. The greatest aim of the faculty is to direct and stimulate the development of the character of the students committed to their care. Direct contact of the student with the teacher is one of the greatest benefits of the school life, and hence the faculty at Blackstone all live in the building with the girls, and meet them not only in the class-room, but in every relation of the school life. The atmosphere of the school is wholesome, inspiring, and uplifting, and the influences are positively Christian.

Cost:-The cost is less than at any other school in the State of equal grade. One hundred and fifty dollar *150) per session pays for Board, Laundry, Medical Attention, except Music and Elocution, which subjects are taught and Tuition in all dehas been the aim from the beginning to maintain a at correspondingly e to parents the benefit of low rates for first-class student body suf Principal and his helpers to know each student instruction, but result has been attained.
